56 reviews of The Operating Room "The Operating Room just opened today, and I had to check it out! It is located in West Glen near the Hurt's Donut shop. Because we went around 3:00 we parked right in front, but I imagine it would be harder to find parking later at night. There were about 10-15 people there when we went in. The games are all against the wall so it is easy to move around.

Modern operating rooms which meet current air standards in the United States should be virtually free of particles larger than 0.5mm when no people are in the room. To achieve this, ORs should be equipped with positive-pressure systems to ensure that air travels from ORs to adjacent areas, thus minimizing inflow of air to the room.

The Operating Room - ISID

By AORN standards, the operating room temperature is normally kept between 68 0 and 75 0. 2 This can vary depending on the type of surgery being performed. For example, during an open-heart procedure, the surgeon can request to have the temperature dropped down to 63 0.

Operating room personnel are key to the outcome of any surgery. It takes a team of doctors, nurses and OR staff working together and performing their individual roles to ensure the best outcome for the patient.

Blog - Who will be in the operating room during your surgery?

What do I expect in the Operating Room? How the operating room is set up is different in each facility, but once you arrive in the operating room, you will notice that it is a very busy area. You will also notice that everyone is dressed the same way. Do not be alarmed! When it is time for surgery to begin, you will be taken to the operating room either by walking with a nurse or by being wheeled on a stretcher.

What to Expect In the Operating Room

Because the operating room staff is the source of a large component of the noise pollution, efforts can be directed toward minimizing irrelevant conversation, especially during critical times. One approach that has been advocated is to adapt a "sterile cockpit" environment, as used in the aviation industry, which also requires use of standardized nomenclature and a structured format for communication. 25
